

FIG. 1

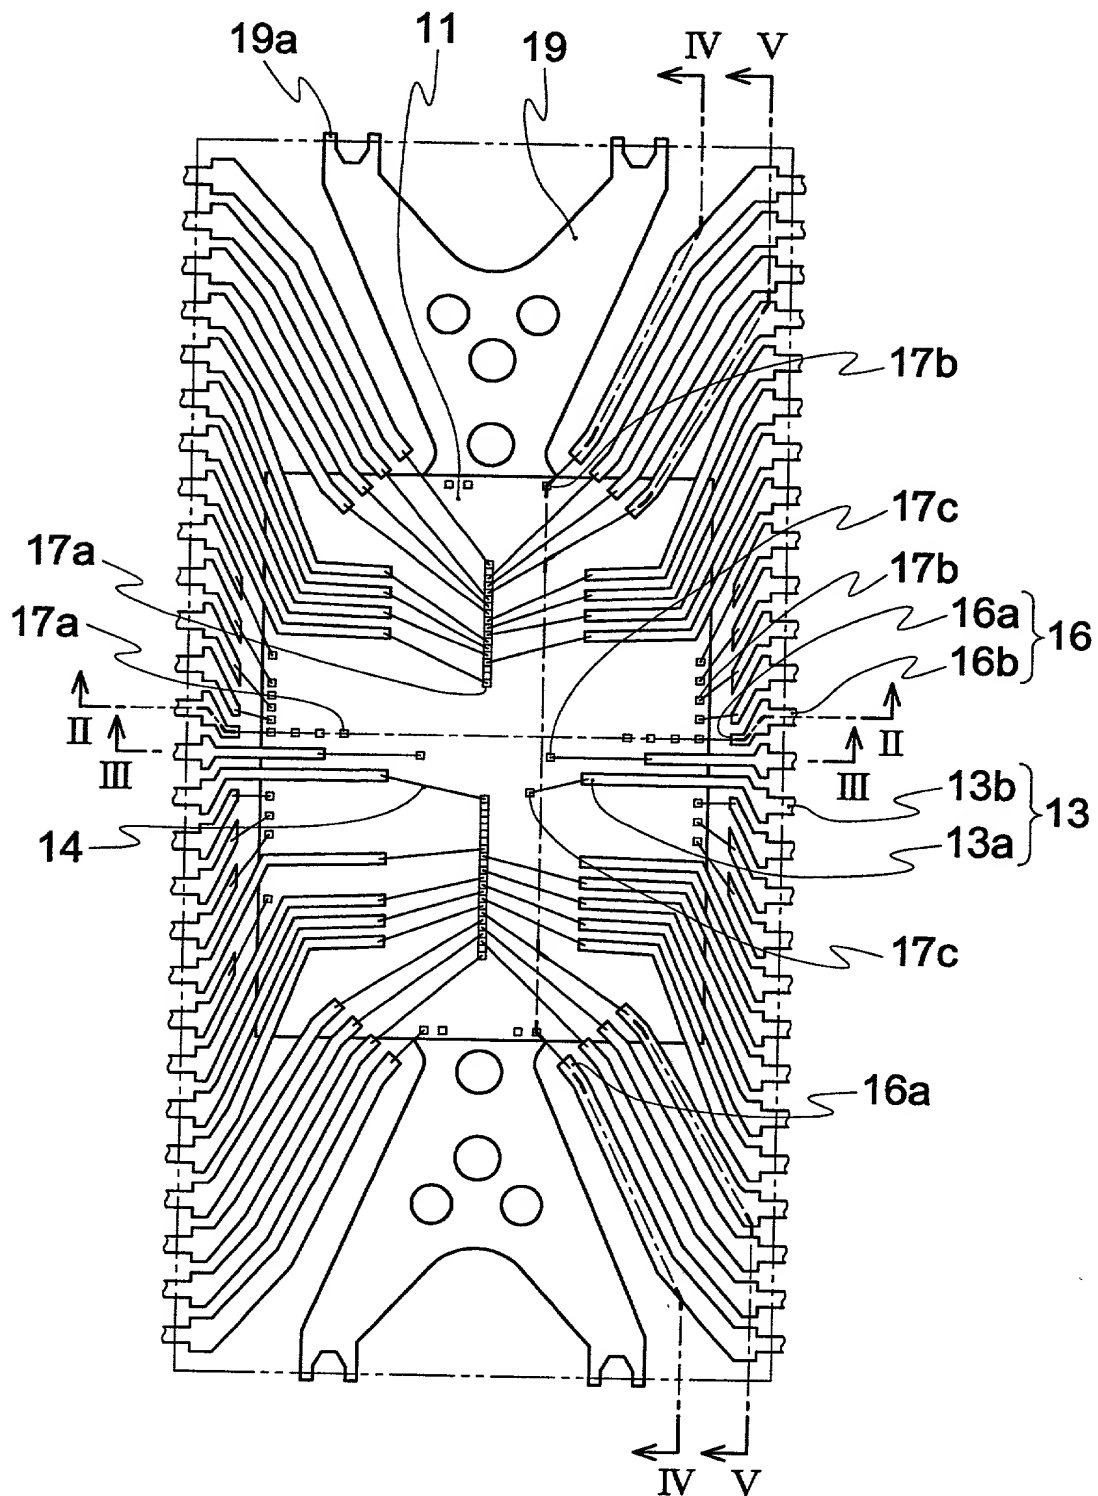

FIG. 2

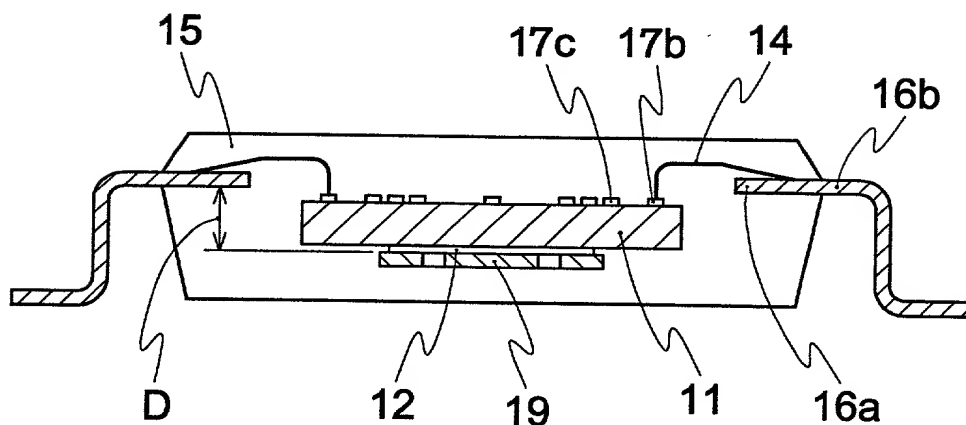

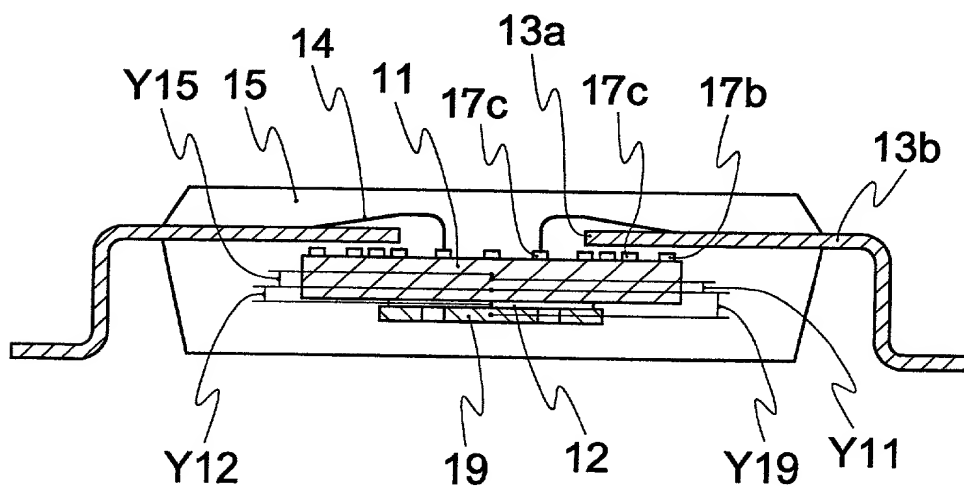

FIG. 3

A detailed cross-sectional view of the device. It shows a central core assembly consisting of layers 11, 12, 17a, 17b, 17c, and 19. This assembly is housed within a rectangular frame or casing labeled 19a. The casing has vertical side walls and horizontal top/bottom flanges. A small gap, indicated by two arrows and labeled 'G', is shown between the top flange of the casing and the upper part of the core assembly.
